O R D E R

On August 31, 1984, Texas American Energy Corporation, (Western) filed an Amended Answer which seeks an order or certificate granting it authority to purchase a gas transmission line from Orbit Gas Company ("Orbit").

On September 4, 1984, Orbit filed its Objection alleging that the Amended Answer is in fact an application for a certificate of convenience and necessity. It also states that substantial additional data is contained in the Amended Answer which requires further evaluation.

After reviewing the Amended Answer, it appears that the Commission as well as Orbit needs additional time to evaluate the Amended Answer.

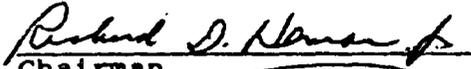

IT IS THEREFORE ORDERED That:

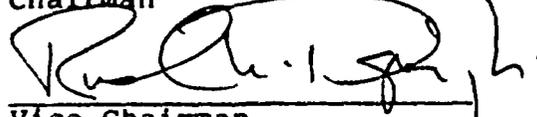

1. The hearing scheduled for September 11, 1984, is continued;
2. A hearing date will be set in the near future;

3. The hearing in the related case of Western Kentucky Gas Company v. Orbit Gas Company, Case No. 9046, is also continued pending the rescheduling of this case.

Done at Frankfort, Kentucky, this 5th day of September, 1984.
